

Financial Management

Solid expertise and strategic vision to support your unique business environment

A full range of financial support targeted to the needs of US government agencies

Program Budgeting

Acquisition Policy & Pricing

Operational Oversight

Invoicing & Payments

Contract Close-Out

Today's economic and political environment demands that federal agencies manage a complex network of financial interactions in an effective and efficient manner. Financial operations are a key element that can vastly affect mission success, whether it is facilitating prompt payment for millions of veterans or assuring efficient procurements for critical security infrastructure. Best Value Technology, Inc. (BVTI) can provide expert personnel and experience-based financial management solutions to streamline day-to-day operations and ensure a solid alignment to your strategic vision.

Comprehensive financial solutions

BVTI provides a full lifecycle of financial services for multiple US government agencies. Examples of our support include:

- **Veterans Affairs Financial Services Center** – BVTI provides post award operational oversight through audit recovery, internal auditing, grant auditing/consulting, and management analysis. We also support claims processing, vendorizing, travel and customer help desk for a variety of financial applications.
- **Federal Aviation Administration Acquisition, Cost & Pricing Support** – BVTI manages over 30 task orders on an FAA-wide IDIQ, earning A+ performance-based ratings. BVTI contracting personnel support contract close-out functions, exceeding goals of evaluating 100 contracts per year and increasing close-outs by 40%.
- **Federal Emergency Management Agency** – Perform definition requirements, data analysis, and legacy system transition.
- **National Security Agency Acquisition Resource Center**, a Department of Defense (DoD) Acquisition Center of Excellence, handles classified acquisitions, source selections, and maintains a registry of over 10,000 vetted contractors and over 20,000 users for 17 agencies of the intelligence community.
- **Department of Homeland Security Advanced Procurement Forecast System** complete redesign and operation of a DHS-wide acquisition portal to forecast contract requirements
- **DHS/DoD** - program budgeting, financial management, and accounting support.

Delivering best value solutions

Best Value Technology, Inc. (BVTI) has often been called "a small business that plays above its weight class". Over the past 12 years, BVTI has earned a solid reputation as a Service-Disabled Veteran-Owned Business (SDVOB) who delivers quality solutions for financial management. We manage twenty prime contracts, working closely with a variety of multi-dimensional partners to deliver seamless solutions to our clients.
